

# BEECHAC

## Bladder Exstrophy, Epispadias, Cloacal Exstrophy, Hypospadias, Australian Community (Incorporated)

### How BEECHAC Inc can help you

#### **Do you need basic information to provide to others about the BEECHAC conditions?**

If you would like your family or friends or health professionals or education providers, employers etc to know more about your condition but would prefer them to read about it rather than you tell them then to start with you can download our [BEECHAC Inc leaflet](#) and give them a copy. The leaflet will have the website address on it and contact email and phone numbers if they would like to find out more.

#### **Do you want to know about conferences in Australia and in other countries related to the conditions that BEECHAC covers?**

In the [conferences section](#) you will find information about relevant conferences about Bladder Exstrophy, Cloacal Exstrophy, Epispadias and Hypospadias. At this stage the conferences are those organised by other organisations but BEECHAC Inc intends to have a national conference in early June 2010. Information is provided in the conference section about the [ABC and HEA Conference](#) in the USA in August 2009 as well as various conferences for health professionals related to BEECHAC needs.

#### **Do you want to join BEECHAC and find out more about our association?**

If you would like to become an active member of BEECHAC Inc then look at our [meetings and committee members section](#). You will find information about our [committee members](#), our [advisory committee](#), [previous minutes](#) of our meetings, information on our [sub committees](#) and our [constitution](#). If you would just like to be a member you can fill in the [membership form](#) and send it to us. You will receive a copy of the [quarterly newsletter](#) and be informed by email or post of any new events such as seminars or conferences.

#### **Are you interested in knowing the latest in research and how to find out about research and research grant providers?**

Organisations that provide grants to associations in partnership with other organisations look at our [research section](#). We hope eventually we will be able to provide information on our own research projects but in the mean time you will find information on research agencies and organisations that provide funding to associations such as BEECHAC Inc to assist members to travel to conferences to give workshops and papers or just to attend.
